About me

Motivated and enthusiastic B.Sc. Computer Science student with experience in back office operations, team management, stock management, and social media handling. Currently learning Full Stack Web Development (HTML, CSS & JavaScript) and looking for opportunities to grow in the IT industry while contributing through strong communication, leadership, and problem-solving skills.

Experience

Head Back Office Executive

July 2025 – July 2026

Waahnam Service, Diva

- Managed staff and assigned daily tasks.
- Coordinated with customers and handled operations.
- Managed social media platforms and Meta Ads campaigns.
- Improved workflow and operational efficiency.
- Worked closely with teams to ensure smooth execution.

Stock Management & Analysis

April 2025 – July 2025

Sky Hub, Dombivli

- Managed stock and inventory records.
- Maintained operational data.
- Assisted in warehouse management.
- Improved inventory tracking and workflow.

Stock Control Executive

February 2025 - April 2025

Swiggy

I was working in Inventory and Stock Operations for Swiggy. My main responsibility was to manage the stock levels using a laptop. This included updating which items were available, tracking pending items, and logging reports for damaged or spoiled products.
